Portafolio

- https://chispa4013.github.io/

More Information

- Quantum Computing Course (UCLM)
- Category B Driving Licence

Languages

- **English:**
  B1 level, currently working towards C11
- **Spanish:**
  Native

Technical Knowledge

- Data Analysis
- Machine Learning
- Algorithms
- Computer Science
- Software Engineering
- Relational and Non-Relational Databases
- Microservices

About me

Computer Engineer specializing in artificial intelligence, machine learning, and data analysis. Experienced in classification, clustering, and deep learning projects. Interested in applying AI and data science techniques to solve real-world problems and generate value from data

Academic Background

University of Castilla-La Mancha

- **Higher School of Computer Engineering, Albacete**
  Bachelor's Degree in Computer Engineering | 2020–2024
- **Higher School of Computer Engineering, Albacete**
  Master's Degree in Computer Engineering (MUII) | 2024–2026

Work Experience

- **3 months as a Virtual Reality Game Developer** at Cerebroom VR Games, Albacete.
- **3 months as a Computer Engineer** at Panadero S.L. (Chatbot Development).

Technical Skills

Languages	Python, SQL, Java, JavaScript, C#, HTML, CSS, .NET,
Data Science & IA	Machine learning and Data Analysis (Power BI, Grafana)
Arquitecture	Docker, Spark, MongoDB, API REST, AWS, n8n
Others	GitHub, Linux, Arduino y ESP32

Others Skills

- Teamwork
- SCRUM
- Creative
- Adaptable
