More Information

- Quantum Computing Course (UCLM)
- Category B Driving Licence

Languages

- **English:** Level B1
- **Spanish:** Native

Technical Knowledge

- Data Analysis
- Machine Learning
- Deep Learning
- Algorithms
- Computer Science
- Software Engineering

About me

Computer Engineer specializing in artificial intelligence, machine learning, and data analysis. Experienced in classification, clustering, and deep learning projects. Interested in applying AI and data science techniques to solve real-world problems and generate value from data

Datos académicos

University of Castilla-La Mancha

- **Higher School of Computer Engineering, Albacete Bachelor's Degree in Computer Engineering |** 2020–2024
- **Higher School of Computer Engineering, Albacete Master's Degree in Computer Engineering (MUII) |** 2024–2026

Experiencia laboral

- **2 months as a Virtual Reality Game Developer** at Cerebroom VR Games, Albacete.
- **3 months as a Computer Engineer** at Panadero S.L. (Chatbot Development).

Technical Skills

Languages	Python, SQL, Java, JavaScript, C#
Data Science & IA	Machine learning, análisis y visualización de datos (Power BI, Grafana)
Arquitecture	Docker, Spark, MongoDB, API REST, AWS, n8n
Others	GitHub, Linux, Arduino y ESP32

Others Skills

- Teamwork
- SCRUM
- Creative
- Adaptable
